Thanks for your email Marty,
I agree. This is a particularly difficult situation we find ourselves in. I want to understand better what you mean. How about when this settles down a bit more, we get together to talk.

Thanks for hanging in there!

Shaun

Sir,

I hope I can be frank.

This email was meant to point out the outstanding efforts of my Team and I will pass along your sentiments.

Personally, I have been doing this for 15 years and have truly contributed to our Agency's very largest responses. I feel broken on this one not because "we caused it" but because I cannot contribute anything meaningful to this one.

Take care,

Marty

Terry,

Please share this with the HQs EOC:

I am taking back the following message. Speaking for the data management teams in Regions 6, 8 and 9, we are proud to say that we will meet our commitment to HQs even after taking on the added workload.

We have a thoroughly amazing crew that is busting there tails and

working long hours to meet the changing data management demands and priorities of this Site.

I personally hope that their continuous efforts will somehow help us overcome the public stigma that EPA can't get data out.

Terry,

Please share this info with the HQs EOC:

We will be delayed in getting you data at 7am tomorrow. We've had to redirect resources to making changes to the deliverables that are required for public consumption.

My Team needs sleep. I will send you an updated delivery time as soon as I can. The R6 and R9 data is in pretty good shape but we still need to go through some of the validation reports for R8.

M
